Based on my observations and interview with the producer(s), I feel confident in making the following declarations about the operation:  The producer engages in sustainable agricultural practices that promote the long-term fertility of soils and conserve water resources on their farm.  The farmer demonstrates a commitment to the protection of the air, soils, waters, and biodiversity of the surrounding land.  I saw no evidence that prohibited insecticides, herbicides, fungicides, or chemical fertilizers were in use on the farm.  The land under consideration looks to be surrounded by an adequate buffer to protect from chemical spray drift contamination.  The farmer is careful to make sure that no genetically modified or chemically treated seeds are used on this acreage.  I feel confident in recommending that the above listed producer(s) and their farm be included in the Certified Naturally Grown program.  As a CNG farmer I'm committed to continually enhancing my farm's sustainability and going beyond what's required. During the next twelve months I will  Signature of Farmer  Date	Inspector is:   ☐CNG Farmer ☐Farmer using natural practices ☐Cert Organic Farmer
