

**Certified Naturally Grown
LIVESTOCK SUMMARY INSPECTION REPORT**

Farmer/s: Kevin Jennings / Brian Campbell Farm name: Kinloch Farm

Inspector: Maureen Kane Affiliation (farm name, extension...) Garlic of Eden, LLC

Inspector is: CNG Farmer Farmer using natural practices Cert Organic Farmer
 Extension or NRCS Agent Sust Ag Educator Master Gardener Customer (1 of 3)

Date of the inspection: 7/16/14 Total Inspection Time: 2.5 hours

Based on my observations and interview with the producer(s), I feel confident in making the following declarations about the operation:

The farmer engages in sustainable agricultural practices that promote the long-term fertility of soils and conserve water resources on their farm. Agree Disagree MK
(Your initials)

I saw no evidence of synthetic chemical insecticides, herbicides, fungicides, fertilizers, nor that antibiotics or prohibited synthetic parasiticides were used. Agree Disagree MK
(Your initials)

The farmer demonstrates a commitment to the health and welfare of the animals under his/her care and conscientiously raises them according to Certified Naturally Grown standards. Agree Disagree MK
(Your initials)

I am confident that the livestock feed and/or forage is either certified organic, Certified Naturally Grown, or grown according to these standards. Agree Disagree MK
(Your initials)

The fields and pasture under consideration look to be surrounded by an adequate buffer to protect from chemical or spray drift contamination. Agree Disagree MK
(Your initials)

The farmer demonstrates a commitment to the protection of the air, soils, waters, and biodiversity of the surrounding land. Agree Disagree MK
(Your initials)

I feel confident in recommending that the above listed producer(s) and their farm

be included **not be included**

in the Certified Naturally Grown program.

As a CNG farmer I'm committed to continually enhancing my farm's sustainability and going beyond what's required. During the next twelve months I will... protect ground-nesting birds in select fields through the adjustment of bush-hogging schedules to avoid disturbing birds during critical nesting periods
